

# HOW TO MAKE A LOUD SHIRT!

*Brought to you by*

**THE FESTIVE CO.**

## DIY Lets Get Loud t-shirt

### STEP ONE

All you need is a tee, set of paints, a brush and some letters you can paint over! We used this bunting set from KMART (\$5 for pack of 72 letters.)

### STEP TWO

Place the letters on the tee. If you need, you can use some double-sided sticky tape to keep them from moving around.

### STEP THREE

Cut up a kitchen sponge. Then swipe the sponge into paint and press over the letters gently. Don't be scared to layer colours!

# GET THE KIDS INVOLVED!

*Pull out the paint and sticky felt, then let the little ones make their own Loud Shirt!*

*Sticky-backed felt is easy to cut into shapes. If your kids are big enough they can cut their own or you can make the shapes and they can press them on!*

*All they need is paint and a brush. Now they can be the artist!*
