

SHOUT OUT!

Sing & Grow Music Group **Building stronger families through music**

The Shepherd Centre will run an eight week block of music group therapy sessions with Sing and Grow at our Macquarie centre next term.

The Sing & Grow session leader will integrate the use of percussion instruments, drums, ribbons, balls and parachutes, along with singing of known and new songs to increase positive interactions between parents and their children, enhance child development, build social support networks and increase parents' confidence to use music as play and for language development at home.

The group is targeted to the 0-5 years age range and siblings are welcome.

Details:

Location: The Shepherd Centre, Macquarie

Dates: Every **Friday**, from Oct 20th to Dec 8, 2017
