

***“The Campbelltown Centre  
will be a blessing for so many  
young families”***

*– Sue Cartledge, a Campbelltown local and  
mother of past graduate Sam (now 25)*

**The Shepherd Centre  
played a very  
pivotal role in Sam’s  
early development,  
offering tremendous  
support and guidance  
to us as first  
time parents of a  
deaf child.  
The Shepherd Centre  
was life-changing for  
our family.**

“When Sam was a young boy in The Shepherd Centre’s early intervention program, not having a local centre meant travelling long distances up to four times per week for sessions. This travel caused stress and strain, especially when Sam’s baby sister arrived.

A local centre in Campbelltown would be fabulous, life changing! This is an area which is very quickly developing, with many young families moving in. The Shepherd Centre will be a blessing for those who require support, without the added stress of travelling long distances in traffic.”
